Internet, Wireless and Wired Remote Controls

AUTOMATION CONTROLS

Taking pool control as far as it can go, into the water and beyond.

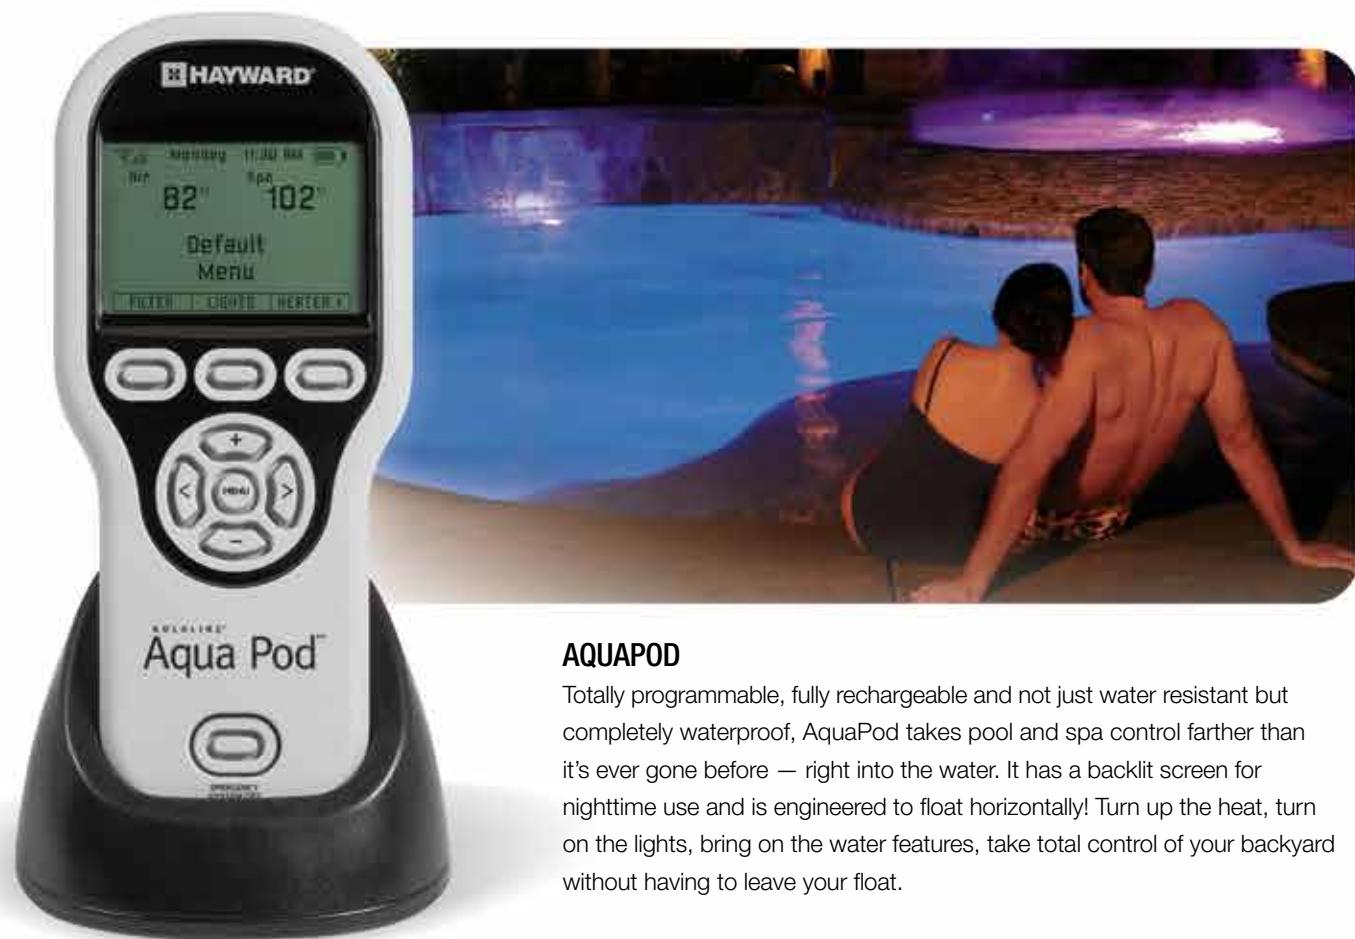

AUTOMATION

Total System: Pumps | Filters | Heating | Cleaners | Sanitization | **Automation** | Lighting | Safety | White Goods

AquaPod®

The handheld controller that does everything and goes everywhere — even into the water.

Hayward® offers a line of the industry's best automation products, for any backyard environment. Automation takes the work out of pool and spa ownership by automating all work-intensive functions, as well as backyard features such as landscape and pool lighting, water features, and more. For the ultimate in convenience, we offer a full line of remote control options for use indoors, outdoors and, with AquaPod, right into the water.

AQUAPOD

Totally programmable, fully rechargeable and not just water resistant but completely waterproof, AquaPod takes pool and spa control farther than it's ever gone before — right into the water. It has a backlit screen for nighttime use and is engineered to float horizontally! Turn up the heat, turn on the lights, bring on the water features, take total control of your backyard without having to leave your float.

Wireless Tabletop

Full function and programmable, with easy-to-read scrolling display of all pool, spa and backyard features. It's compact, lightweight and rechargeable and will work up to 500 feet away from your automation system. Available in black and white.

Wireless 6-Function Remote

Floating, waterproof remote operates pool and spa. Simple on/off commands for all functions. Can be used with other remotes.

Wired Spa-Side

Basic on/off control of all features. Offered in two models: 8 or 6 functions. Attractive, durable and easy to mount. Available in black and white.

Wireless and Wired Wall Mount

Low-profile design suitable for all indoor or protected outdoor applications. Mounts directly on wall or standard electrical box. When wireless, it operates up to 500 feet away from your automation system. Connects using four-conductor phone cable. Full function and programmable, with easy-to-read scrolling display of all pool, spa and backyard functions. Available in black and white.

Remote Pool Management

AquaConnect Web will allow you to manage your pool from anywhere with no monthly subscription fee. It will give you access to more than 100 pool and spa conditions, parameters and settings. This premium remote management service is ideal for busy pool owners who want to monitor and control their pools from any location, 24/7, 365 days a year. You can also have your pool service company monitor and maintain your pool, too. Controls, reporting, diagnostics and adjustments can be managed with any WiFi-enabled device.
