

Cyclone Liner-Vac 3.0HP 120VOLT MODEL 4128100

A powerful bypass blower specifically designed for installing vinyl liners and for winterizing pools, the Cyclone offers:

- A completely redesigned plastic housing made of durable polyethylene that can take the abuse and rough handling of a service tool.
- Powerful 3.0hp 120volt three-stage bypass motor with long life brushes, producing 130cfm open flow and 160inches of sealed pressure.
- Motor cover plate can be easily removed to replace brushes or to service motor.
- 20amp toggle switch with toggle boot.
- 2 inch standard N.P.T. threaded inlet with filter screen to protect motor.
- 1.5 inch hose adapter on outlet can be easily adapted to a variety of fittings.
