PREMIUM PRESSURE-SIDE POOL CLEANERS

TRADE SERIES
EXCLUSIVE

The Polaris® PB4SQ™ is an energy-efficient, multistage booster pump that operates quietly and is easy to install and service. It has been designed to provide optimum power to Polaris pressure cleaners.

FEATURES

- Compact, rugged design perfect for new or existing installations
- Works with low-flow and variable-speed pumps
- Factory wired for 230V; can be easily rewired for 115V
- Multiple conduit locations for convenient connections
- Lay-in style bonding lug

ENERGY-EFFICIENT

High-performance multistage pump reduces energy use by more than 30%*.

*Compared to Polaris PB4-60

QUIETER OPERATION

TEFC motor and innovative fan are designed for quieter operation.

EASY INSTALLATION

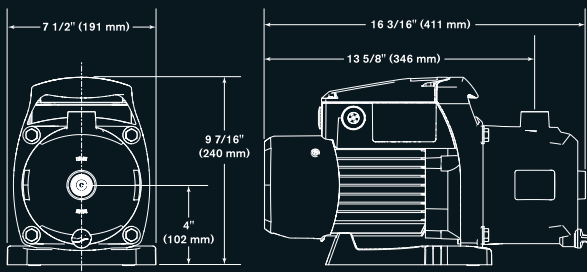

Includes Quick Connect fittings and easy access to wiring.

OPTIMUM PERFORMANCE

Specifically designed to operate pressure cleaners at optimum efficiency.
