Durability And Dependability That Only Hayward Can Offer.

Reliability built right in.

Power-Flo Matrix® features an industrial-size strainer basket – to collect a lot of debris without a lot of maintenance. It's there to collect and protect. The high-quality impeller offers wide openings to prevent leaf and debris clog.

While this pump is impressively equipped, the Power-Flo Matrix is also very efficient. It has a heat-resistant, double-size seal and a protected rear-mounted switch for high energy efficiency. Plus, its heavy-duty, high-performance motor provides years of trouble-free operation thanks to an integrated automatic thermal overload protector.

Vertical. Horizontal. You choose.

Want to install it horizontally? Fine. Want to install it vertically? No problem. The Power-Flo Matrix from Hayward adapts to your needs, easily converting from horizontal to vertical orientation at the press of a button.

Convenience is part of the package.

Power-Flo Matrix offers a quick-connect/disconnect intake and discharge connection to speed things along. Plus, the C-Clip Connector lets you disengage the strainer housing in a matter of seconds. And an integral drain plug makes for easy winterization. Add to that a durable, corrosion-proof housing, and you have a pump designed for long-term performance.
