

Reserve

This specially formulated mix of bromide salts becomes a powerful bromine sanitizer when combined with Leisure Time **Renew™** tabs or granular. Not only is this two-part system completely chlorine-free, but there are no unpleasant side effects typically associated with other non-chlorine sanitizing systems. Use **Reserve** as part of the **Reserve & Renew™ Sanitizing System**.

Features:

- A bromide solution for use with **Renew™** tabs or granular as part of a system for disinfection of water in spas
 - 100% bromine sanitizer
 - Easy-to-use liquid

Applications:

Weekly:

1. Treat the spa with **Metal Gon** according to its label directions.
2. Add **Reserve** (4 oz./250 gallons of spa water) directly into the spa while circulating the water to assure rapid and thorough distribution.
3. Add **Renew™** tabs or granular to activate the bromide bank for a bromine residual.

Tips:

Heavy usage may result in depletion of bromine and require additional dosages of **Renew™** tabs or granular and/or **Reserve** to maintain the desired bromine residual. Change water monthly or as needed to maintain water quality.

Compatible With:

Bromine sanitizing systems.

Advantage:

Use weekly as part of **Reserve & Renew™ System**. Part of the **Leisure Time Simple Spa Care™** program.
